Chief Executive Officer

Report of the Board of Directors for the year ended 30th June 2016.

Respected shareholders

I feel honoured to be able to present before you the Annual Report of the company along with audited financial statements for the year ended on 30th June 2016 and Auditors' Report thereon.

Company's performance and financial Result.

You, the honourable share holders, are aware that Beach Hatchery Ltd. is a shrimp fry producing industry with yearly production capacity of 600 million fry in 6-7 cycles. Normally we produce about 60% to 70% of installed capacity depending on demand and supply. Our production in 2016 is 100.00million fry as against 398.94 million in 2014.

We passed financial year 2016 and the company earned a net loss of Tk. 2,18,66,171.00 as against Tk.4, 21, 72,493.00 financial years 2014.

Dear shareholders.

Our Directors have been striving hard to improve business position and income of the company in days to come.

Auditors' qualified opinion on financial statements for the years ended 30th June 2016.

1. Trade debtors

Outstanding against this head is because of nature of business and product we deal in. There are some special features in marketing of fry. Since it is a perishable product, terms of sale is normally dictated by buyers. Unhealthy competition among sellers also attribute to credit sale. These have made the market highly credit biased. We are aware of this situation and trying our best to realize the outstanding amount. Direct contact with debtors, social pressure and legal action are the measures we have been pursuing. We are optimistic about realization of outstanding in due course.

2. Advance against purchase

This is a continuous process. We have been pursuing to adjust the same. In our efforts to adjust, total advance has been reduced by 27.68% compared to outstanding in preceding year. Efforts to adjust and bring it to minimum will continue.

3. Bank Loan

We are working for final settlement with the bank and hopeful about positive decision soon.

4. Tax

Our Tax Adviser is working to file appeal against assessment order and we are pursuing.

Dividend:

Considering the overall financial condition of the company the Board of Directors has not recommended any dividend to shareholders for the period ended 30th June 2016.

On behalf of the Board

Engr. Md. Shariful Islam
Chairman.

Additional Statement by the Board of Directors as per condition 1.5 of the notification dated 07, August 2012.

Industry outlook and possible future developments in the industry

This is said to be a backward linkage sector of shrimp processing industry, a 100 % export oriented sector. As harmonious combination of temperature, salinity & humidity is pre-requisite for this industry, in Bangladesh context, coastal belt of Cox's bazar District is considered to be only location for setting up of shrimp Hatchery. As a result there had been a mushroom growth of Hatcheries in Cox's bazar District in Nineties. Total number being about 60 (Sixty) of different sizes and capacity, about 30 (thirty) is non-functional for poor structure and erroneous business policy. Ours is a Hatchery of 600(six hundred) million (Fry) production capacity with super structure and maximum (production) facilities started production in 1997. Our production has been dismantled by the Government to construct marine drive road and hence entire operation has stopped.

Risk and concern.

As a matter of fact every investment is risk prone. So is the case with investment in our company. The risk could result in loss of income and even capital investment as location of the industry is very close to Sea. Investors may seek independent financial advice while deciding to invest.

Management Perception.

This is a nature dependent business. Also dependent on prospect of (i) Shrimp culture and (ii) processing industry. If prospect of these sectors remain bright Hatchery sector also shines. We have to see good marketing of processed shrimp worldwide as our marketing is linked with it.

Interest rate risk.

It is related with borrowed fund both short and long term. Our money market is not organized to cope with increased demand for loan and investment as a growing economy requires. As such at times, we see liquidity problem resulting high rate of interest.

Management Perception.

The Management of the company is fully aware of the impact of high rate of interest as it increases cost of production affecting profitability.

Exchange rate Risk

We have to use imported raw materials particularly feed and chemicals. But don't import the same normally.

Management Perception.

As the company is not involved in import and export we have little concern about exchange risk. However, we are aware about it.

Market and Technology related risk.

Replacement of old technology by developed and latest one is the trend of present day production and marketing strategy. Existing technology may not be efficient enough to cope with future trend and needs.

Management Perception.

Management is fully aware about the development in the sector and bring about changes, where needed.

Economic and political situation.

Diversification in agro-economy sector is the motto of the Government. In this direction trend is to go for expansion of command area, more production at economy rate and increase in export of processed shrimp.

Management Perception.

Management of the company has been working for increased production at economy rate and higher profit. Success is dependent on political and social condition in the country.

Energy

Energy is main factor of production. If energy supply remains un-interrupted, production target in relation to market demand and capacity is to reach goal to yield more profit.

Management Perception.

Management is aware about it. We have our own Generator to meet situation. Too much dependent on Generator may increase production cost and affect profitability.

History of non-operation, if any

Since start of Production in 1997 never we had to face 'Shut Down' position. As against production capacity of 600 million per annum we produced 400 million to 500 million every year in 6-7 cycle depending entirely on demand and supply.

Management Perception.

Our company was incorporated in August 1994 as private limited company and later converted into public limited company in November 1995. We have already completed 18 years of successful operation since start of production in 1997.

AUDITOR'S REPORT TO THE SHAREHOLDERS OF BEATCH HATCHERY LIMITED

We have audited the accompanying financial statements of **Beach Hatchery Limited**. Which comprise the Consolidated Statement of Financial Position as at 30 June 2016, and the related Consolidated Statement of Comprehensive Income, Consolidated Statement of Cash Flows and Consolidated Statement of Changes in Equity for the period from 1 January 2015 to 30 June 2016 and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards (BFRS), the Companies Act 1994, Bangladesh Securities and Exchange Rules, 1987 and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSA). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Our observations on some of the points are noted bellow:

- I. The out of the total Accounts Receivable amount of Tk.28,8084,120/-[Note No.-08] TK. 103,279,528 has been confirmed by the debtors directly to us, in response to our letter for balance confirmation circulated to them . The company has made provision for bad and doubtful debts TK. 1,366,093/- during the year under audit though a considerable amount is lying with the debtors for more than one year. Except the amount of bad debts the Management considered all those debts are good for realization.
- II. That the balance of Advance TK. 6,162,814/- (Note NO.-09.00-a) for which no provision has been made for unadjusted /unrealizable advances as the management of the company considered the full amount of advances are good for realization /are adjustable, despite more than one year outstanding.
- III. That the balance of project loan and working capital loan take from Bangladesh Krishi Bank (BKB) Teknaf Branch , Teknaf stands at TK. 12,834,718/- (Note No.-13.00) and TK 33,257,443/- (Note No.-14) respectively , but neither the Bank has re-scheduled the said loans nor the company has settled any amount during the year under audit . Though the company has made provision for interest during the year but could not provide us neither balance confirmation certificate nor any bank statement for said loan accounts. As such we could not satisfy ourselves regarding the correctness of the said Bank liabilities.
- IV. That the Income Tax authority has issued letter dated 04.02.2015 claiming Tk.1,93,35,561 as outstanding tax up to for the assessment year 2012-2013 (accounting year ended 31December 2011) but the company has not made sufficient provision to meet up the said claim on the ground that they are under the process of appeal against such assessment orders.

Opinion

In our opinion, except for the effects on the financial statements of the matters referred to in the preceding paragraph, the financial statements prepared are in accordance with the Bangladesh Financial Reporting Standards(BFRS) , give a true & fair view of the state of the Company's affairs as of 30 June ,2016 and of the results of its operations and cash flows for the year then ended comply with the Companies Act 1994, the Securities Exchange Rules 1987 and the other applicable laws and regulations.

We also report that:

- a) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books and proper adequate for the purpose of our audit;
- c) The Company's Consolidated Statement of Financial Position and Consolidated Statement of Comprehensive Income, dealt with by the report are in agreement with the books of accounts and returns
